scooping it up and stuffing it into the maw of their own craft, establishing communication with us through their Intermediaries, then issuing their incredible edict. They do not appear to care that they have interfered with Humankind's grandest endeavor. Our vessel is Terra's first bona fide starship, in which the captain and I were to have accelerated through normal space to light-velocity, activated the tardyon-tachyon conversion system and popped back into normal space in the neighborhood of Alpha Centauri. I can understand how the captain feels.. "You are as innocent as any creature in the woods," he said over and over in amazement.. "And three and a half for the pair," Jason added. "And that is a rock-bottom offer. You won't do.79.The gale blows itself out on the morning of the 26th. The sun is bright, the sea almost dead calm..my head is killing me..". "Do you want the child, Lucy?" Lang asked quietly.. "Of course before breakfast," said the prince, and fell to chopping. The ice chips flew around him, turned murky green. There was a soft whisper of crushing pile, then a tide of scarlet and purple eddied.by SAMUEL R. DELANY.A young physicist started to stray."I see, I see," said Amos. "How did the skinny grey man steal it from you, and what does he want with it?".lighted the lock while she held her shirt in front of her with one hand..Gus Verdugo worked in R&I. I had done him a favor once, and he insisted on returning it tenfold. I gave him everything I had on Andrew Detweiler and asked him if he'd mind running it through the computer. He wouldn't mind. He called back in fifteen minutes. The computer had never heard of Andrew Detweiler and had only seven hunchbacks, none of them fitting Detweiler's description..Slowly, Selene twisted the wrist back and down while the poly around them swirled in wave after wave.develop in water and can just lie there after the micro-operation..would never run out. Eli was on too, and a bricklayer named Dan. It was clear by this time that the Organizer had no intention of settling for a smaller package, and it was equally as clear that the Company had no intention of coming through with a bigger one.. "Next time m tell her. I won't lie to her again. So I guess this will all have to stop.. "After the funeral I went to the Los Angeles Public Library and started checking back issues of the Times. I'd only made it back three weeks when the library closed. The LA. She squeezed her eyes shut tight, forcing out tears, then nodded..So finely drawn, and with the glitter of ice, the manipulating wires radiate outward. The gate people.Thus, the facts alone make it clear that the King has no such intent His real purpose in building the Project is to provide a haven. A haven to which the people can flee should a second phenomenal ram-fall again cause the Twin Rivers to overflow their banks to such an extent that the entire Plain becomes inundated. Living on that Plain, the members of Local 209 stand to benefit from the Project as much as the rest of the people. For them to have, in effect, sabotaged such a noble undertaking is, frankly, beyond my comprehension, unless their motive for doing so can be partially attributed to their unwitting acceptance of the popular interpretation of the Project's purpose.. "Maurice didn't seem to mind." He sniffed and lit another cigarette. "When did Detweiler leave?".He went down the hallway to the other bedroom. The door was ajar and he moved past it, calling softly. "Mama Dolores?".On Christmas Eve, feeling sad and sentimental, he got out the old cassettes he and Debra had made on their honeymoon. He played them on the TV, one after the other, all through the night, waring mellower and mellower and wishing she were here. Then, hi February, when the world had once again refused to end, she did come home, and for several days it was just as good as anything on the cassettes. They even, for a wonder, talked to each other. He told her about his various encounters in pursuit of his endorsements, and she told him about the Grand Canyon, which had taken over from the end of the world as her highest mythic priority. She loved the Grand Canyon with a surpassing love and wanted Barry to leave his job and go with her to live right beside it Impossible, he declared. He'd worked eight years at Citibank and accrued important benefits. He accused her of concealing something. Was there some reason beyond the Grand Canyon for her wanting to move to Arizona? She insisted it was strictly the Grand Canyon, that from the first moment she'd seen it she'd forgotten all about Armageddon, the Number of the Beast, and -all the other accoutennents of the Apocalypse. She couldn't explain: he would have to see it himself. By the time he'd finally agreed to go there on his next vacation, they had been talking, steadily, for three hours!.and concerned the absence of an event that up to that time had been as regular as the full moon..and pointed at him. It was a good-sized living room come to life."Tell me the truth..Lang raised her eyebrows. "Yes, it was under the dome. The air we exhausted was warm,

you see, glass. Sometimes the repetition of what we have just said will suggest a new meaning or possibilities of worse and worse all day; then he'd be fine, all rosy and healthy\* looking." I nodded. "I have your wire." 8. Subject: Zorphwar Contract. (chorus). So Amos took off the prince's clothes and the sailor took them to the brig and returned with Amos' near the Brewster- and Detweiler was at the Brewster Monday.. breakfast time.. It was a flying creature, the size of a fruit fly, that managed to glide. She put two cigarettes in her mouth and lit them both. She handed me one. "You don't look a bit like. There, he thought, that should keep her busy long enough for me to think of the next one. He opened. The clients took the rest of the morning and a good portion of the afternoon, looking at estates all over Aventine. A sale of the size property they were interested in would bring a big commission, too big for me to risk seeming preoccupied or impatient. I kept smiling, though inside I felt as Selene looked when she forced herself to walk slowly beside me. I even took them back to the cabletrain, but I had no sooner seen them off than I was flinging myself back into the runabout and driving up to Amanda's cabin.. 2 Damon Knight. than her for a companion. I wondered, too, when I might see Selene again.. Lang stood up and shook Song's shoulder. Song came slowly back to them and sat down, still blinded by a private vision. Crawford had a glimpse of it himself, and it scared him. And a glimpse of something else, something that could be important but kept eluding him.. Joanna Russ for "In Defense of Criticism". "Does this map tell where the pieces are hidden?" "You're right," he said. "What we need is a pilot, and that pilot is Commander Weinstein. Which presents problems legally, if nodiing else. He's the captain of a ship and should not leave it. That's what kept him on the Edgar in the first place. But he did have a lot of training on the lander simulator back when he was so sure he'd be picked for the ground team. You know Winey, always the instinct to be the one-man show. So if he thought he could do it, he'd be down here in a minute to bail us out and grab the publicity. I understand they're trying to work out a heat-shield parachute system from one of the drop capsules that were supposed to ferry down supplies to us during the stay here. But it's very risky. You don't modify an aerodynamic design lightly, not one that's supposed to hit the atmosphere at ten thousand-plus kilometers. So I think we can rule that out. Again and again the call came. So Hinda went to the door, for she feared nothing in the wood. And who should come winded to the cottage but Brother Hart. He had no words to tell her hi his deer form, but blood beaded his head like a crown. It was the first time she had ever seen him bleed. With only a week left till his temporary license expired, Barry abandoned all hope and all shame and nando Valley was spread like a carpet of lights below us. And what about cloned human beings, which is, after all, the subject matter of "RandalP's Song"? "I will not leave." Mama settled herself hi a rocker beside the crib. As Nolan turned to go, she called after him softly. "Remember what I have told you, senor. If she comes again?" Fve got ten seconds to stare out at that vast crowd. Where, I wonder, did the arena logistics people scrape up almost a million in/out headbands? I know I'm hallucinating, but for just a moment I see the scarlet webwork of broadcast power reaching out from my console to those million skulls. I don't know why; I find myself reaching for the shield that covers the emergency total cutoff. I stop my hand.. "Pipe down in there," said the jailor. "I'm trying to sleep." And he spread out his piece of grey canvas sail and lay down.. Detweiler wasn't feeling well at all. He was pale and drawn and fidgety. His eyelids were heavy and his speech was faintly blurred. I'm sure he was in pain, but he tried to act as if nothing were wrong.. That night Amos again went to the brig. No one had missed the jailor yet So there was no guard at all.. pieces of the mirror together. Now they could make out what the shape of the third would be. "And if." "Doesn't matter," I say..
