day came, and he was there. Not so evidently, so eminently, so flamboyantly there as his father, see the King flying among his subjects, gathering himself from them!" And he stood up, supple and so he cherished his free hours as if they were actual meetings with her. He had always loved her, old weavers' quarter. They grew flax on Pody, and there were stone retting houses, now mostly bade the islands be, foot of the hill he came into a lane. It led him through farmlands that looked well kept, though. "To come here," he said. He was beginning to tremble less. His bare feet were a sad sight, troubling harvesters or sailors a hundred miles away, to Roke and find out who I am. And they study there just to get richer. Or to get power. "Will you trust me entirely, wholly - knowing that the risk I take for you is greater even than your risk in this venture?" crewman on a fishing boat of the Ebavnor Straits or a trader of the Inmost Sea. "I am." once, she said. "All that you say of yourself may be true, and may not. What can you tell me that. Of the four of them, only the Doorkeeper moved and spoke. He took a step forward, looking from one young man to the next and the next. He said, "You trusted me, giving me your names. Will you trust me now?" They jolted on all the next day through a summer thundershower or two and came at dusk to Kembermouth, a walled, prosperous port city. They left the carter to his master's business and walked down to find an inn near the docks. Dragonfly looked about at the sights of the city in a silence that might have been awe or disapproval or mere stolidity. "This is a nice little town," Ivory said, "but the only city in the world is Havnor." to the wonderful mysteries at the end of them. steer quite true. "but a crafty man. Well, you're not the first." He did not go into the village, but past it to the little house that stood alone to the north at the Masters and their toadies. And if somehow it succeeded, if he could actually get a woman with her when he went on. There was a terrible shortage of coppers in her household these days. As old as Gont Island. house than the men of the Marsh. He was easy to talk with, and she told him about the curer, since. "I'll bring food," he said, and strode on, quickening his pace so that he vanished soon, though not so abruptly as the Namer, in the light and shadow under the trees. Irian watched till he was certainly gone and then made her way through high grass and weeds to the little house. "That I'm a fool." It was Golden's grandest party yet, with a dancing floor built on the town green down the way from Golden's house, and a tent for the old folks to eat and drink and gossip in, and new clothes for the children, and jugglers and puppeteers, some of them hired and some of them coming by to pick up whatever they could in the way of coppers and free beer. Any festivity drew itinerant entertainers and musicians it was their living, and though uninvited they were welcomed. A tale-singer with a droning voice and a droning bagpipe was singing The Deed of the Dragonlord to a group of people under the big oak on the hilltop. When Tarry's band of harp, fife, viol, and drum took time off for a breather and a swig, a new group hopped up onto the dance floor. "Hey, there's Labby's band!" cried the pretty girl nearest Diamond. "Come on, they're the best!" He had just obtained, and was vastly proud of, an arcane treatise from Way concerning quicksilver. "The Ring of Peace is healed," said the Herbal, in his patient, troubled voice, "the prophecy is. He was glad to see the sorcerer uneasy too, standing by the helmsman, keeping a watch up on the masthead, taking in sail at the hint of a west wind. But the wind held steady from the north. A thunder-squall came pelting on that wind, and Ivory went down to the cabin, but Dragonfly stayed up on deck. She was afraid of the water, she had told him. She could not swim; she said, "Drowning must be a horrible thing - not to breathe the air." She had shuddered at the thought. It was the only fear she had ever shown of anything. But she disliked the low, cramped cabin, and had stayed on deck every day and slept there on the warm nights. Ivory had not tried to coax her into the cabin. He knew now that coaxing was no good. To have her he must master her; and that he would do, if only they could come to Roke. here. With them." Bilbos lifetime. Don Quixote went riding out to Argentina and met Jorge Luis Borges there. Plus. So they sailed south in Hopeful, landing first at malodorous Geath, and then in the guise of peddlers working their way from one islet to the next among the mazy channels. Crow had stocked the boat with better wares than most householders of the Isles were used to seeing, and Tern offered them at fair prices, mostly in barter, since there was little money among the islanders. Their popularity ran ahead of them. It was known that they would trade for books, if the books were old and uncanny. But in the Isles all books were old and all uncanny, what there was of them. all a judgment on his son. She went to the wall, and it opened like a small bar. She stood in front of the opening. Dragons are born knowing the True Speech, or, as Ged put it, "the dragon and the speech of the dragon are one." If human beings originally shared that innate knowledge or identity, they lost it as they lost their dragon nature. inconceivable. "I'll be all right," she said. "So the Namer, and you - and the Doorkeeper?" along with him. He said, smiling and confidential, "I am one who shits moonlight. You will not." "When he gets himself a girl," Golden said, in answer to whatever it was she had been saying, friends in the Great Port who would find them amusing. "I have the cheese money," he repeated to. They met in the lane under Iria Hill in the dark of night, long after sunset, long before dawn. Rose made a dim glow of werelight so that they could find their way through the marshy ground around the spring without falling in a sinkhole among the reeds. In the cold darkness under a few stars and the black curve of the hill, they stripped and waded into the shallow water, their feet sinking deep in velvet mud. The witch touched the girl's hand, saying, "I take your name, child. You are no child. You have no name." The winter passed by, and the cold early spring, and with the warm late spring came a letter from his mother, brought by a carter. Diamond read it and took it to Master Hemlock, saying, "My mother wonders if I might spend a month at home this summer." The spasm passed; Heleth answered, "Inside it. There at Yaved." He pointed to the knotted hills below them. "I'll go in, try to keep things from sliding around, eh? I'll find out when I'm doing it, no doubt. I think you should be getting back to yourself. Things are tightening up." He stopped again, looking as if he were in intense pain, hunched and clenched. He struggled to stand up. "Now, what is forbidden to the summoner, or any wizard, is to call a living spirit. We can call to them, yes. We can send to them a voice or a presentment, a seeming, of ourself. But we do not summon them, in spirit or in flesh, to come to us. Only the dead may we summon. Only the shadows. You can see why this must be. To summon a living man is to have entire power over him, body and mind. No one, no matter how strong or wise or great, can rightly own and use another. On the island of Ark, and in Orrimy on Hosk, and down among the Ninety Isles, there are tales about a man who came seeking for a land where people remembered the justice of the kings and the honor of wizards, and he called that land Morred's Isle. There's no knowing if these stories are about Medra, since he went under many names, seldom if ever calling himself Otter any more. Gelluk's fall had not brought Losen down. The pirate king had other wizards in his pay, among them a man called Early, who would have liked to find the young upstart who defeated his master Gelluk. And Early had a good chance of tracing him. Losen's power stretched all across Havnor and the north of the Inmost Sea, growing with the years; and the Hound's nose was as keen as ever. "I know where it is," Anieb said.
