"A woman," he said..You must make your choice alone, as a man. Do you understand that?" Golden was earnest, seeing his chance to begin to wean the lad from his mother. She as a woman would cling, but he as a man must learn to let go. And Diamond nodded sturdily enough to satisfy his father, though he had a thoughtful look..of Havnor had been burnt to the ground. "My sister has never taught a man before" she said. She glanced at him, and gazed away, over the summery fields. "She's never looked at a man before," she said..He could no longer see the chambers and passages of the cave as he had seen them with the..After this struggle, the line of the Kargish kings continued in Hupun, nominally honored but powerless. The Four Lands were governed from Awabath. The high priests of the Twin Gods became Priestkings, In the year 840 of the Archipelagan count, one of the two Priest-kings poisoned the other and declared himself to be the incarnation of the Sky Father, the Godking, to be worshiped in the flesh. Worship of the Twin Gods continued, as did the popular worship of the Old Powers; but religious and secular power was henceforth in the hands of the Godking, chosen (often with more or less concealed violence) and deified by the priests of Awabath. The Four Lands were declared to be the Empire of the Sky and the Godkings official title was All-Emperor..BUT OF COURSE he went down to Havnor South Port, in one of his father's carts driven by one of his father's carters, along with Master Hemlock. As a rule, people do what wizards advise them to do. And it is no small honor to be invited by a wizard to be his student or apprentice. Hemlock, who had won his staff on Roke, was used to having boys come to him begging to be tested and, if they had the gift for it, taught. He was a little curious about this boy whose cheerful good manners hid some reluctance or self-doubt. It was the father's idea, not the boy's, that he was gifted. That was unusual, though perhaps not so unusual among the wealthy as among common folk. At any rate he came with a very good prenticing fee paid beforehand in gold and ivory. If he had the makings of a wizard Hemlock would train him, and if he had, as Hemlock suspected, a mere childish flair, then he'd be sent home with what remained of his fee. Hemlock was an honest, upright, humorless, scholarly wizard with little interest in feelings or ideas. His gift was for names. "The art begins and ends in naming," he said, which indeed is true, although there may be a good deal between the beginning and the end..greeting people, I no longer crushed their hands. There's the Doorkeeper, you said. I don't know." "How can we get free?"..English translation Copyright ? 1980 by Stanislaw Lem..GOLDEN WAS immensely happy and quite unconscious of it. "Old man's got his jewel back," said the carter to the forester. "Sweet as new butter, he is." Golden, unaware of being sweet, thought only how sweet life was. He had bought the Reche grove, at a very stiff price to be sure, but at least old Lowbough of Easthill hadn't got it, and now he and Diamond could develop it as it ought to be developed. In among the chestnuts there were a lot of pines, which could be felled and sold for masts and spars and small lumber, and replanted with chestnut seedlings. It would in time be a pure stand like the Big Grove, the heart of his chestnut kingdom. In time, of course. Oak and chestnut don't shoot up overnight like alder and willow. But there was time. There was time, now. The boy was barely seventeen, and he himself just forty-five. In his prime. He had been feeling old, but that was nonsense. He was in his prime. The oldest trees, past bearing, ought to come out with the pines. Some good wood for furniture could be salvaged from them.. "What does it do, then?"..lifted my head I saw only a black void. Yet, strangely enough, at that moment its blind presence..In the west of Havnor, among hills forested with oak and chestnut, is the town of Glade. A while..was stiff, rejecting him. The wizard Hemlock, who had known his great-uncle the Mage, came up from South Port to name him. And Hemlock was invited to his nameday party the year after, a big party, beer and food for all, and new clothes, a shirt or skirt or shift for every child, which was an old custom in the West of Havnor, and dancing on the village green in the warm autumn evening. Diamond had many friends, all the boys his age in town and all the girls too. The young people danced, and some of them had a bit too much beer, but nobody misbehaved very badly, and it was a merry and memorable night. Not that it's your fault..".However the Division came about, from the beginning of historical time human beings have lived in the main Archipelago and the Kargad Lands east of it, while the dragons kept to the westernmost isles-and beyond. People have puzzled at their choosing the empty sea for their domain, since dragons are "creatures of wind and fire," who drown if plunged under the sea. But they have no need to touch down either on water or on earth; they live on the wing, aloft in air, sunlight, starlight. The only use a dragon has for the ground is some kind of rocky place where it can lay its eggs and rear the drakelets. The small, barren islets of the farthest West Reach suffice for this..Medra took her hand and put his forehead against it. Telling his story he had kept back tears. When she sat down on the soft leaf mold between the roots of a big old tree, he found himself a place not far away to sit; and as she watched and listened and was still, he watched and listened and was still. So they did for several days. Then one morning, in rebellious mood, he stayed by the stream while Ember walked into the Grove. She did not look back. . . . Her eyes were wild.
