

F JUST DELIGHTFULLY DIFFERENT HOLLAND BULBS FOR DIRECT IMPORT SUMM

Nolly said, "We've never really had a song of our own, in spite of all the dancing we do. I think this is a good one. But so far, you've only sung it to another man." Paul checked the back of the Suburban, since he fancied himself the wagonmaster. He wanted to be sure that the goods were loaded in such a way that they were unlikely to slide or be damaged. "Packed tight. Looks just fine," he declared, and closed the tailgate door. This was the same woman who had been stripping the second bed when Celestina arrived earlier. Now she was here to remake the first. Now, without realizing when it had happened, he had been lowered from his knees to his right side. Head elevated and tilted by one of the paramedics. So he could expel the bile, the blood, rather than choke on it. Think, think. A three-minute drive to the Lampion place. Maybe two minutes, running stop signs, cutting corners. Amazed, Agnes gaped at her baby. The throat lump that blocked her speech was part pride, part awe, and part fear, though she didn't at once understand why this wonderful precociousness should frighten her. Celestina smiled distractedly. Since arriving at the hotel an hour ago, she had been openly debating with herself whether to call her parents in Spruce Hills or to wait until later in the afternoon, when she might be able to report not just that she had a fiancé, and not only that she had a fiancé who'd been shot and nearly killed, but also that his condition had been upgraded from critical to serious. As she'd explained to Tom, in addition to worrying them with the news about Cain, she'd be stunning them with the announcement that she was going to marry a white man twice her age. "My folks don't have one ounce of prejudice between them, but they sure do have firm ideas about what's appropriate and what's not." This would ring the big bell at the top of the White Family Scale of the Inappropriate. Besides, they were preparing for the funeral of a parishioner, and from personal experience, Celestina knew their day would be full. Nevertheless, at ten minutes past eleven, after picking at her breakfast, she finally decided to call them. Golden lamplight gilded the front windows downstairs. He would sit with Victoria on the living-room sofa, sipping wine as they got to know each other. She might tell him to call her Vicky, and maybe he'd ask her to call him Eenie, the affectionate name Naomi had given him when he wouldn't tolerate Enoch. Soon, they would be necking like two crazy kids. Junior would disrobe her on the sofa, caressing her smooth pliant body, her skin buttery in the lamplight, and then he would carry her, naked, to the dark bedroom upstairs. On one wall hung an impressive array of gardening tools. In the corner was a potting bench. Apparently Maria wished that she'd brought a rosary to dinner. With the fingers of her right hand, she pinched the knuckles of her left, one after the other, as if they were beads. In this case, he was sure that vanity was not a fault, not the result of a swollen ego, but merely healthy self-esteem. That he was irresistible to women wasn't simply his biased opinion, but an observable and undeniable fact, like gravity or the order in which the planets revolved around the sun. Perhaps these two months of frustration had brought him to this: hair-trigger nerves, fevered imagination, and anticipation distilled into dread. If the state police did get involved, and even if they found evidence that the accident was staged, they would most likely point the finger of blame at the man for whom Victoria had been preparing dinner. "It's just ... the last time I saw him, he trapped me in a corner and told this god awful story, far more than I wanted to know, about some British murderer back in the forties, this monstrous man who beat people to death with a hammer, drank their blood, then disposed of their bodies in a vat of acid in his workroom." He shuddered. He swore that he would throw away all memory of this incident, as well. In Caesar Zedd's best-selling *How to Deny the Power of the Past*, the author offers a series of techniques for expunging forever all recollection of those events that cause us psychological damage, pain, or even merely embarrassment. Junior went to bed with his precious copy of this book and a snifter of cognac filled almost to the brim. "I believe I'll just wait here until Mr. Cain wakes," Vanadium said. "I've nothing more pressing to do." Although he ate more meals in restaurants than not, he hadn't ordered a burger in twenty-two months, since finding the quarter embedded in the half-melted slice of cheddar, in December of '65. Indeed, since then, he'd never risked a sandwich of any kind in a restaurant, limiting his selections to foods that were served open on the plate. "proud," she said, smiling as she quoted one of their father's most familiar sermons, "nor powerful." In reality, it had been a homely device, a mere box. In memory, it seemed ominous, charged with the evil portent of a nuclear bomb. Nolly, Kathleen, and Sparky had prepared him for Industrial Woman, but when the flashlight beam flared off her fork-and-fan-blade face, Vanadium twitched in fright. Without fully realizing what he was doing, he crossed himself. As Junior stood at Seraphim's grave, his breath smoked from him in the still night air, as though he were a dragon. He spat on his right thumb, scrubbed the thumb against one of the dried drips on the floor, rubbed thumb and forefinger together, and brought the freshened spoor to his nose. He smelled blood. Paul withdrew the pistol from the drawer. The weapon didn't feel as good to him as guns always felt in the hands of pulp heroes. AS MEANINGFUL AS Jacob's death had been within the small world of his family, Agnes Lampion never lost sight of the fact that there were more resonant deaths in the larger world before 1968 ended and the Year of the Rooster followed. On the fourth of April, James Earl Ray gunned down Martin Luther King on a motel balcony in Memphis, but the assassin's hopes were foiled when, because of this murder, freedom grew more vigorously from the richness of a martyr's blood. On June 1, Helen Keller died peacefully at eighty-seven. Blind and deaf since early childhood, mute until her adolescence, Miss Keller led a life of astonishing accomplishment; she learned to speak, to ride horses, to waltz; she graduated cum laude from Radcliffe, an inspiration to millions and a testament to the potential in even the most blighted life. On June 5, Senator Robert F. Kennedy was assassinated in the kitchen of the Ambassador Hotel in Los Angeles. Unknown numbers died when Soviet tanks invaded Czechoslovakia, and hundreds of thousands perished in the final days of the Cultural Revolution in China, many eaten in acts of cannibalism sanctioned by Chairman Mao as acceptable political action. John Steinbeck, novelist, and Tallulah Bankhead, actress, came to the end of their

journeys in this world, if not yet in all others. But James Lovell, William Anders, and Frank Borman-the first men to orbit the moon-traveled 250,000 miles into space, and all returned alive.."Our little girl's going to walk backward her whole life if you drive in reverse all the way to the hospital." Over the final refrain of "I'll Be Seeing You" came a man's voice from the foyer, raised quizzically, with perhaps a note of surprise: "Victoria.."The doctors," he continued, "needed to repair damage to the left frontal sinus, the sphenoidal sinus, and the sinus cavernous, which had all been partially crushed by that pewter candlestick. Frontal, malar, ethmoid, maxillary, sphenoid, and palatine bones had to be rebuilt to properly contain my right eye, because it sort of ... well, it dangled. That was just for starters, and there was considerable essential dental work, as well. I elected not to have any cosmetic surgery." They were each down to one last sip of wine, studying dessert menus, when Celestina began to wonder if, in spite of all instincts and indications, she might be wrong about the state of Wally's heart. The signs seemed clear, and if his radiance wasn't love, then he must be dangerously radioactive-yet she might be wrong. She was a woman of some insight, quite sophisticated in many ways, with the raw-nerve perceptions of an artist; however, in matters of romance, she was an innocent, perhaps even more pitifully naive than she realized. As she perused the list of cakes and tarts and homemade ice creams, she allowed doubt to feed upon her, and as the thought grew that Wally might not love her that way, after all, she became desperate to know, to end the suspense, because if she didn't mean to him what he meant to her, then Daddy was just going to have to accept her conversion from Baptist to Catholic, because she and Angel would have to spend some serious heart-recovery time in a nunnery..Junior jammed on the brakes, slammed the gearshift into park, threw open the door, and plunged from the car. He spun around to face the menace, loose gravel shifting treacherously underfoot..the grass, silent because he is barely conscious, too badly beaten to protest or to plead for mercy, but also..Junior worried, however, that they had noticed him after he pulled to the curb twice behind them, that they were keeping an eye on him, ready to bolt if he got out of the car, in which case they might all make it inside before he could cut them down..To the windows, then, drawing all the blinds securely down. And still, irrationally, she felt watched..The middle finger on his right hand throbbed under the pair of Band-Aids. He'd sliced it earlier, while using the electric sharpener to prepare his knives, and the wound had been aggravated when he'd had to strangle Neddy Gnathic. He would never have cut himself in the first place if there had been no need to be well-armed and ready for Bartholomew and his guardians..Junior didn't believe in gods, devils, Heaven, Hell, life after death. He put his faith in one thing: himself.."It sure is," Barty said. When only a mortified silence followed his remark, he added: "Gee, I thought that was kinda funny."..In the first drawer, he discovered an address book. Logically, Vanadium would have taken this with him, even if on the lam from a murder rap, so Junior tucked it in his jacket pocket.."He knew how you felt about having too much life insurance. So he didn't disclose it to you."..Angel followed him and observed as he climbed a stepstool and unhooked the telephone handset. He dialed with little pause between digits, and spoke with each of his uncles..When the long table was laden and the wine poured, when everyone but Mary settled into chairs, Angel said, "My daughter tells me she wants to make a short presentation before I say grace. I don't know what it is, but she assures me it doesn't involve singing, dancing, or reading any of her poetry."..Using the straight edge of a ruler to guide his eye down each column, Junior searched for Bartholomew, ignoring surnames. He had already checked to see if anyone in the county had Bartholomew for a last name; no one in this directory did..Tom said, "Now I'm going to add a human touch and a spiritual spin to all this. When each of us comes to a point where he has to make a significant moral decision affecting the development of his character and the lives of others, and each time he makes the less wise choice, that's where I myself believe a new world splits off. When I make an immoral or just a foolish choice, another world is created in which I did the right thing, and in that world, I am redeemed for a while, given a chance to become a better version of the Tom Vanadium who lives on in the other world of the wrong choice. There are so many worlds with imperfect Tom Vanadiums, but always someplace ... someplace I'm moving steadily toward a state of grace.".. "All right, the scary one." "I SOMETIMES EVEN EAT SPIDERS WITH MY CAVIAR." "Now who's being gross?" The morning that it happened, Edom woke early from a nightmare about the roses.."Just now." Although Angel tried to sound nonchalant, she was trembling. "I'm not sure I can do it again."..The musician's behavior required explanation. After wending through the crowd, Junior located the man in front of a painting so egregiously beautiful that any connoisseur of real art could hardly resist the urge to slash the canvas to ribbons.."Thursday it is," he said, clearly delighted to be receiving only a third of the fair-market rental from his apartment..Thanksgiving dinner was a fine affair, and Christmas was even better. On New Year's Eve, Wally downed one drink too many and more than once offered to perform surgery on any member of the family, free of charge "right here, right now," as long as the procedure was within his area of expertise..He suspected the blame lay with his exceptional sensitivity to violence, death, and loss. Previously it manifested as an explosive emptying of the stomach, this time as a purging of lower realms..Maria, however, lived comfortably with both the Catholicism and the occultism in which she had been raised. In Hermosillo, Mexico, the latter had been nearly as important to the spiritual life of her family as had been the former..The Benediction service had concluded, and the worshipers had departed. Gone, too, were the priest and the altar boys..Could any spell of magic make..Edom, who had never made it big, medium, or little, watched his sister blur before him. He strove to contain the shimmering hotness in his eyes. His love was not for magic, and his pride was not in any skill he possessed, for he possessed none worth noting. His love was for his good sister; she was his pride, too, and he felt that his small life had precious meaning as long as he was able to drive her on days like this, carry her pies, and occasionally make her smile..And although Simon would have denied it, would even have joked that a conscience was a liability for an attorney, he possessed a moral compass. When he traveled too far along the wrong trail, that magnetized needle in his soul led him back from the land of the lost..It was then that village sorcery, and above all women's witchery,

came into the ill repute that has clung to it since. Witches paid dearly for practicing the arts they thought of as their own. The care of pregnant beasts and women, birthing, teaching the songs and rites, the fertility and order of field and garden, the building and care of the house and its furniture, the mining of ores and metals--these great things had always been in the charge of women. A rich lore of spells and charms to ensure the good outcome of such undertakings was shared among the witches. But when things went wrong at the birth, or in the field, that would be the witches' fault. And things went wrong more often than right, with the wizards warring, using poisons and curses recklessly to gain immediate advantage without thought for what followed after. They brought drought and storm, blights and fires and sicknesses across the land, and the village witch was punished for them. She didn't know why her charm of healing caused the wound to gangrene, why the child she brought into the world was imbecile, why her blessing seemed to burn the seed in the furrows and blight the apple on the tree. But for these ills, somebody had to be to blame: and the witch or sorcerer was there, right there in the village or the town, not off in the warlord's castle or fort, not protected by armed men and spells of defense. Sorcerers and witches were drowned in the poisoned wells, burned in the withered fields, buried alive to make the dead earth rich again..For Junior, 1968--the Chinese Year of the Monkey--would be the Year of the Plastic Surgeon. He would require extensive dermabrasion to restore the smoothness and tone to his skin, to be as irresistibly kissable as he had been before. While at it, he would need surgery to make subtle changes in his features. Tricky. He didn't want to trade perfection for anonymity. He must take care to ensure that his postsurgery look, when he let his hair grow in and perhaps dyed it, would be as devastating to women as his previous appearance..At the end of their second date, however, Frieda invited Junior up to her apartment, to see her Lientery collection and, no doubt, to take a ride on the Cain ecstasy machine. She owned seven canvases by the painter, received as partial payment of his PR bills..At eleven o'clock Saturday morning, having just settled in the hotel after arriving from St. Mary's, they were waiting for the SFPD to deliver suitcases of clothes and toiletries that Rena Moller, Celestina's neighbor, had packed according to her instructions. While waiting, the three of them took an early lunch--or a late breakfast--at a room service table in the living room..The gray pewter appeared to be mottled with a black substance. Perhaps char. As though it had been soiled in a fire..of the deceased. This memorial was modest, neither large nor complicated in design. Nevertheless, often the carvers in this line of business followed days after the morticians, because the stones to which they applied their craft demanded more labor and less urgency than the cold bodies that rested under them..After a little silence Otter said, "Thanks." And he looked up at Hound, one brief, questioning, judging glance..The driver shook his head. "I knew everything anyone would need to know about you when I heard you ask your kid what would happen if the stupid boogeyman showed up in her dream."..He remembered the collection of Caesar Zedd self-help drivel that had occupied a place of honor in the wife killer's former home in Spruce Hills. Cain owned a hardcover and a paperback of each of Zedd's works. The more expensive editions had been pristine, as though they were handled only with gloves; but the text in the paperbacks had been heavily underlined, and the corners of numerous pages had been bent to mark favorite passages..Dr. Leland Daines, Celestina's internist, arrived directly from dinner at the Ritz-Carlton. Although Dairies had receding white hair and a seamed face, time had been kind enough to make him look not so much old as dignified. Long in practice, he was nevertheless free of arrogance, soft-spoken and with a bottomless supply of patience.."I said it didn't work that way, and it doesn't. Yet ... I don't actually walk in those other worlds to avoid the rain, but I sort of walk in the idea of those worlds. . . ."..Junior leaned forward and slid the packet of cash across the desk, toward the detective. "There's more where this came from."..Agnes found this turn of events amazing, amusing, ironic--and a little sad. She would have dearly loved to teach the boy to read and write, to see his knowledge and competence slowly flower under her care. Although she fully supported Barty's exploration of his gifts, and although she was proud of his astounding achievements, she felt that his swift advancement was robbing her of some of the shared joy of his childhood, even though he remained in so many ways a child..The missing paintings. The missing collection of Zedd's books. You didn't take these things with you for a weekend in Reno. You took them if you thought you might never be coming back..Cradling the baby, the nun turned with it to Celestina, folding back a thin blanket to present her with a good look at the tiny girl..He tugged on a pair of thin latex surgical gloves. Flexed his hands. All right.."Well, with so much on His shoulders, He can't always watch us directly, you know, with His fullest attention every minute, but He's always at least watching from the corner of His eye. You'll be all right. I know you will."..As he entered, the visitor's back was to Junior, and he moved toward the table, where dead Victoria sat with her head on her folded arms. She looked for all the world as though she were just resting..It wasn't as if this was Junior's first encounter with a dead body. In the past few years, he'd become as comfortable with the deceased as any mortician might be. They were as unremarkable to him as cupcakes were to a baker.."Simon's a funny duck," Vanadium said, "but I like him more than a little and trust him implicitly. He wanted to know what he could do to help. Initially, my speech was slurred, I had partial paralysis in my left arm, and I'd lost fifty-four pounds. I wasn't going to be looking for Cain for a long time, but it turned out Simon knew where he was."..Although he had made no effort to summon them, tears spilled from Junior's closed eyes. They weren't drawn from him by thoughts of poor Naomi. These next few days--perhaps weeks--were going to be tedious, until he could have Nurse Victoria Bressler. Under the circumstances, he had good reason to feel sorry for himself..Someone she had known. Someone Celestina, too, might know. He lived in or around Spruce Hills, because Phimie had considered him still to be a threat.."Maria is coming by with Francesca and Bonita," Agnes said. "We might as well put all the extensions in the table. Barty, call Uncle Jacob and Uncle Edom and invite them for dinner."..This was the image that plied the turbulent waters of Junior Cain's imagination when he sailed out of the driver's door and came around to face the Studebaker, his heart dropping like an anchor..She bent down and kissed his cheek, his right eye, his left, his brow, his dry cracked lips. "I love you so much. I

wanted to die when I thought you weren't with me anymore..With effort, she managed to say, "I'm sorry, sweetie," but her voice was sufficiently distorted by anguish that even to herself, she sounded like a stranger.."He's an attorney, and this grieving husband comes to him with a big liability case. There's money to be made."..Gradually, Agnes realized that this was not a prayer for the soul of a deceased infant but for the survival of one still alive.."September 27, 1962. Barcelona, Spain. A flood killed four hundred forty-five people."..In spite of its dazzle, the detective's smile was nonetheless melancholy, proof that he was sincere when he said that Seraphim's baby was beyond their reach..Bob gently encouraged him to return by degrees from the deep meditative state, return, return, return.....More good American music. The Supremes were Negroes, sure, but Junior was not a bigot. Indeed, he had once made passionate love to a Negro girl..One of the hardest things that she had ever done was to leave him then, alone in his room, with the hateful something still quietly growing in his eye. She wanted to move the armchair close to his bed and watch over him throughout the night..The two men introduced themselves. The physician was Dr. Jim Parkhurst. His manner was easy and affable, and his soothing voice, either by nature or by calculation, was as healing as balm..Not once did he look back to see if the fire had grown visible as a glow against the night sky. The events at Victoria's were part of the past. He was finished with all that. Junior was a forward-thinking, future-oriented man..Grace, Celestina, and Paul expressed amusement and amazement at Angel's critical judgment..The man's voice echoed hollowly in Junior's ears, as if coming from the far end of a tunnel. Or from the terminus of a death-row hallway, on the long walk between the last meal and the execution chamber..About ten feet from the trunk of the oak, Barty departed his straight route and began to circle the tree.."Mom always says that pigs will surely fly one day if ever Daddy chooses to convince them that they've got wings."..After much oily commiseration, sanctimonious babble about Naomi having gone to a better place, and insincere talk of the government's desire always to ensure the public safety and to treat every citizen with compassion, Knacker or Hisscus, or Nork, finally got around to the issue of compensation.."He must've listened on the car radio," Agnes said, digging down into the layered days in her packed trunk of memories. "He was trying to get ahead of his work, so he'd be able to stay around the house a lot during the week after the baby came. So he arranged to meet with some prospective clients even on Sunday. He was working a lot, and I was trying to deliver my pies and meet my other obligations before the big day. We didn't have as much time together as usual, and even as impressed as he must've been with the sermon, he never had a chance to tell me about it. The next-to-last thing he ever said to me was 'Bartholomew.' He wanted me to name the baby Bartholomew."..THE DEAD DETECTIVE, grinning in the moonlight, a pair of silvery quarters gleaming in the sockets once occupied by his eyes..But he was more than she had ever imagined her boy to be, more than merely a prodigy..Her voice as bright as her bed ensemble, spiritual sister to baby chicks everywhere, yellow Angel raised her head from the pillow and said, "Will you have a wedding?"..As terrible as the situation was for Barty, Agnes knew that it was equally difficult for Paul. She could only hold him in the night, and let herself be held. And more than once, she told him, "If worse comes to worst, don't you go walking again."..Later, when the seven of them were gathered at the dinner table, the adults raised glasses of Chardonnay, the children raised tumblers of Pepsi, and Maria gave the toast. "To Bartholomew, the image of his father, who was the kindest man I've ever known. To my Bonita and my Francesca, who brighten every day. To Edom and Jacob, from who ... from whom I've learned so much that has made me think about the fragility of life and made me realize how precious is every day. And to Agnes, my dearest friend, who has given me, oh, so much, including all these words. God bless us, every one."..Whereas the lone heart at the center of the rectangular white field inspired amazement and delight in her brothers and in Maria, Agnes reacted to it with dread. She strove to mask her true feelings with a smile as thin as the edge of a playing card..In that instant, she knew the dreadful shape of the future, if not its fine details..First room on the left. Move. Kick the door open. The sense of a larger space beyond, no bathroom this time, and darker. Fan the pistol, gripping with both hands. Two quick shots: muffled cough, muffled cough..Barty came out of the house with the library copy of Podkayne Of Mary, which his mother had promised to read to him later, in the hospital. "Are we all going?" he asked..Anyway-and curiously-Industrial Woman increasingly looked to him like Scamp. As various abraded and inflamed mucous membranes constantly reminded him, he'd had more than enough of Scamp for a while. At last the day arrived: Friday, January 12..But the boy played no tricks against his father. He took his beatings in silence and learned to hide his gift..To have the best chance of becoming a master mechanic, any young apprentice needs a mentor. The art of total card control cannot be learned entirely from books and experimentation..Junior was reminded of a scene in an old movie, something Naomi wanted to watch, a love story set during the Black Plague: a horse drawn cart rolling through the medieval streets of London or Paris, the driver ringing a hand bell and crying, "Bring out your dead, bring out your dead!" If contemporary San Francisco had provided such a convenient service, he wouldn't have had to toss Neddy Gnathic in the Dumpster in the first place..She got up from the chair, went to the window, and raised the venetian blind rather than look out between its slats..He tried to lean back as he dropped, with the hope that he would fall under her, providing cushion if they met with sidewalk instead of lawn..Junior Cain was committed to continuous self-improvement. He believed in the need constantly to expand his knowledge and horizons order to better understand himself and the world. The quality of life was solely the responsibility of oneself he author of How to Have a Healthier Life through Autohypnosis was Dr. Caesar Zedd, a renowned psychologist and best-selling author of a dozen self-help texts, all of which Junior owned in addition to the literature that he had acquired from the book club. When he had been only fourteen, he'd begun buying Dr. Zedd's titles in paperback, and by the time he was eighteen, when he could afford to do so, he'd replaced the paperbacks with hardcovers and thereafter bought all the doctor's new books in the higher-priced editions. The collected works..Agnes supposed Jacob trembled in anticipation of the crash of an airliner or at least a light aircraft. Edom might be calculating the odds that this serene place-at this specific hour-would be the

impact point for one of those planet-killing asteroids that reputedly wiped most life off the earth every few hundred thousand years or so..He didn't pause to lock the house behind them. Bright Beach, in 1965, was as free of criminals as it was untroubled by lumbering brontosaurus.
