

# HARRY REPORT ON THE COALINGA OIL DISTRICT FRESNO AND KINGS COUNTIES CALIFORNIA

you'll begin to get dizzy. You'll end with the blind staggers and die as they do." "Some flurries," he said. She got a good look at him now in the light of lamp and fire. He was not a young man, thin, not as tall as she had thought. It was a fine face, but there was something wrong, something amiss. He looks ruined, she thought, a ruined man..He drank a mug of beer down in one draft, and the girls with him watched the muscles in his strong throat as he swallowed, and they laughed and chattered, and he shivered all over like a cart horse stung by flies. He said, "Oh! I can't --!" He bolted off into the dusk beyond the lanterns hanging around the brewer's booth. "Where's he going?" said one, and another, "He'll be back," and they laughed and chattered..before he ever went to Roke..with her, and she was grateful to him for his patience, knowing he was much quicker than she..happened. I believe this isn't very different from what historians of the so-called real world do..She got him onto his bed, pulled the shoes off his feet, and left him sleeping. Berry came in late.Through that link he could send his own strength, the Mountain's strength, to help. I didn't tell.IN THE YEARS after Diamond left home, Golden made more money than he had ever done before. All his deals were profitable. It was as if good fortune stuck to him and he could not shake it off. He grew immensely wealthy..Diamond sat in his own sunny room upstairs, on his comfortable bed, hearing his mother singing as she went about the house. He held the wizard's letter and reread the message and the two runes many times. The cold and sluggish mind that had been born in him that morning down in the shallows accepted the lesson. No magic. Never again. He had never given his heart to it. It had been a game to him, a game to play with Darkrose. Even the names of the True Speech that he had learned in the wizard's house, though he knew the beauty and the power that lay in them, he could let go, let slip, forget. That was not his language..The name and office of archmage were invented by Halkel, and the Archmage of Roke was a tenth Master, never counted among the Nine. A vital ethical and intellectual force, the archmage also exerted considerable political power. On the whole this power was used benevolently. Maintaining Roke as a strong centralising, normalising, pacific element in Archipelagan society, the archmages sent out sorcerers and wizards trained to understand the ethical practice of magic and to protect communities from drought, plague, invaders, dragons, and the unscrupulous use of their art..the park I had ridden up, yet back there, in the plaza with the dancing colors and where the streets.RAMBRENT. There was a fluttering from white and bluish fluorescent tubes, stairs of crystalline.He resolved to wait and watch. Being a patient man with a strong will, he did so for four years, till Diamond was sixteen. A big, well-grown youth, good at games and lessons, he was 'still ruddy-faced and bright-eyed and cheerful. He had taken it hard when his voice changed, the sweet treble going all untuned and hoarse. Golden had hoped that that was the end of his singing, but the boy went on wandering about with itinerant musicians, ballad-singers and such, learning all their trash. That was no life for a merchant's son who was to inherit and manage his father's properties and mills and business, and Golden told him so. "Singing time is over, son," he said. "You must think about being a man."..length of his hand, and as it leapt it cried out in a small, clear voice, in that same language,..getting there, for the spells that hid the island were stronger than ever, making it seem only a..There they fished for whales, as they still do. That was a trade he wanted no part of. Their ships stank and their town stank. He disliked going aboard a slave ship, but the only vessel going out of Geath to the east was a galley carrying whale oil to O Port. He had heard talk of the Closed Sea, south and east of O, where there were rich isles, little known, that had no commerce with the lands of the Inmost Sea. What he sought might be there. So he went as a weatherworker on the galley, which was rowed by forty slaves..At first he was overwhelmed with fierce fantasies of power and revenge: he would free the slaves,..face gave way to something simpler, a look of complicity, very nearly a wink. "I see," he said..Then she turned and went down the hill through the long grass, the way she had come..up on quick, laboring wings to the top of the cliffs. Then, possessed by flight, he flew on over a..went up again. Sometimes now Anieb followed him. He could say her name, though she did not answer.."I don't know," he said, but he tried to bring the werelight round them, and after a while the ground glimmered faintly before their feet..hillside, and said he was buried deep under there. Early had no wish to exhume him. But the boy.."Trust," the young man said. "Yes. But against- Against them?- Gelluk's gone. Maybe Losen will fall now. Will it make any difference? Will the slaves go free? Will beggars eat? Will justice be done? I think there's an evil in us, in humankind. Trust denies it. Leaps across it. Leaps the chasm. But it's there. And everything we do finally serves evil, because that's what we are. Greed and cruelty. I look at the world, at the forests and the mountain here, the sky, and it's all right, as it should be. But we aren't. People aren't. We're wrong. We do wrong. No animal does wrong. How could they? But we can, and we do. And we never stop."..bold and graceful, her head carried high..monster emptying its lungs of air, the light reappeared, the girl pushed open the door. A real.bit... But the boy had met his match in the Masters..creatures of the Grove. As he had said, he did not try to teach her. When she asked about the..it galled him..him. Later when he tried to repeat the word, he stood dumb..file:///D:/Documents%20and%20Settings/harry/...0%20LeGuin%20-%20Tales%20From%20Earthsea.txt (13 of 111) [2/5/2004 12:33:30 AM].All day he stayed near the Otter's House, keeping watch on Irian, making her eat a little with him. She came to the house, but when they had eaten she went back to her place on the streambank and sat there motionless. And he too felt a lethargy in his own body and mind, a stupidity, which he fought against but could not shake off. He thought of the Summoner's eyes, and then it was that he felt cold, cold through, though he was sitting in the full heat of the summer's day. We are ruled by the dead, he thought. The thought would not leave him..So they sailed south in Hopeful, landing first at malodorous Geath, and then in the guise of peddlers working their way from one islet to the next among the mazy channels. Crow had stocked the boat with better wares than most householders of the Isles were used to seeing, and Tern offered them at fair prices,

mostly in barter, since there was little money among the islanders. Their popularity ran ahead of them. It was known that they would trade for books, if the books were old and uncanny. But in the Isles all books were old and all uncanny, what there was of them..lucky as an Irian'. The masters and many tenants of the domain added its name to their own,..far end of the old workings. There he nodded downward and stamped his foot..dominion for a generation or longer. At Shelieth on Way, Erreth-Akbe worked a great magic against..was stiff, rejecting him. Then she turned and, fierce, hasty, awkward, seized him in her arms. It..face. She put her hand to the door and it opened, but not into an apartment; the floor moved softly..He sat up. The dark sea was so quiet that the stars were reflected here and there on the sleek lee side of the long swells. Oared galleys seldom went out of sight of land and seldom rowed through the night, laying to in any bay or harbor; but there was no moorage on this crossing, and since the weather was settled so mild, they had put up the mast and big square sail. The ship drifted softly forward, her slave oarsmen sleeping on their benches, the free men of her crew all asleep but the helmsman and the lookout, and the lookout was dozing. The water whispered on her sides, her timbers creaked a little, a slaves chain rattled, rattled again..It was as strangely quiet as the farmlands. Not a voice, not a face. It was difficult to feel..On his rides, he sometimes passed an old house on a hill among great oaks. When he turned off the village lane up the hill, a pack of scrawny, evil-mouthed dogs came pelting and bellowing down at him. The mare was afraid of dogs and liable to buck and bolt, so he kept his distance. But he had an eye for beauty, and liked to look at the old house dreaming away in the dappled light of the early summer afternoons..bitch!"..her something to say that, yet when she had said it she felt released, untied too. What was she.."No. It isn't the High Art. It isn't the True Speech. A wizard mustn't soil his lips with common."My people, the Kargs, they worship gods. Twin gods, brothers. And the king there is also a god..She turned away from him and them and went on up the hill in the gathering darkness. As she went..of chambers rose up into the tower through smoke and fumes. In those chambers, Licky had told him,..two mulatto women in parrot-green furs, ruffled like feathers -- apparently, that sort of bird style.."To a man?"..arrived. Licky had left Otter outside sitting in the sun rather than in the room in the barracks..balm's just pig fat, I'd swear. Well, so, he says to Otak, you're taking my business. And maybe..and, straining my eyes, I could see the tiers and horizontal terraces of the giant. It came to me in a.."No," he said, taking no offense, perhaps not understanding, "Of course it wasn't. I beg your pardon," she said..Each True Rune has a significance, a connotation or area of meaning, which can be more or less defined in Hardic; but it is better to say that the runes are not words at all, but spells, or acts. Only in the syntax of the Old Speech, however, and only as spoken or written by a wizard, not as a statement but with intention to act, reinforced by voice and gesture-in a spell-does the word or the rune fully release its power.."If you ever tell it to anyone I'll kill you," Dragonfly said..At that the wizard whose true name was Heleth stood as still as he did, looking back at him, till the boy's gaze dropped..early summer afternoons..looked at the pages. Long, long lists of names and numbers, debts and credits, profits and losses..street did I remember that I had intended to ask about a hotel..from pain. It was all part of the great principle, perfectly clear once seen. He was sure he was..even know if they were occupied or not, since they had no windows. Six streets led from

The old man put his own.name but said only, "mistress"..time without anger -- of that poor fellow who now, three hours after my arrival, was undoubtedly.."No," Azver said, but could say nothing else. It..The Windkey stood silent, but the group of men muttered, angry, and some of them moved forward. Azver came between her and them, her words releasing him from the paralysis of mind and body that had held him. "Tell Thorion we will meet him on Roke Knoll," he said. "When he comes, we will be there. Now come with me," he said to Irian..a sorcerer's seduction-spell of which he was contemptuous even as he made it, though he knew it..Telio, in the twilight, beside the wall of stones..remained motionless for a few seconds, then slowly went along the shore, following its uneven..managed to bring a bit of magewind into the sail of a boat, though he had no idea how to combat or..The huge sign said EXOTAL. A sudden rush of warm air made the legs of my trousers flap.."All the foreigners in one basket," said the taverner, and this was repeated that night at the..overlooked?"..me now?"..her timbers creaked a little, a slaves chain rattled, rattled again..For a half millennium or longer, men ambitious to work the great spells of magery bound themselves..to get up and walk that the young man lurched to his feet and stumbled several steps, almost..It took him a long time to cross the cavern. He put his bad arm inside his shirt and kept his good hand pressed to his hip joint, which made it a little easier to walk. The walls narrowed gradually to a passage. Here the roof was much lower, just above his head. Water seeped down one wall and gathered in little pools among the rocks underfoot. It was not the marvelous red palace of Tinaral's vision, mystic silvery runes on high branching columns. It was only the earth, only dirt, rock, water. The air was cool and still. Away from the dripping of the stream it was silent. Outside the gleam of werelight it was dark..particularly of the words of the Language of the Making. His Book of Names became the foundation..The wizard sometimes had him come with him to his work, mostly laying spells of safety on ships.."But. . ." The Changer paused.."Everything's perilous," Dragonfly said, gazing now through the sheep, the hill, the trees, into still depths, a colorless, vast emptiness like the clear sky before sunrise..The school was founded in about 650, as described above. But she will not give birth to the King. She is.who had looked at him. He saw her eyes..thundered; she fell flat on the ground..with her when he went on. There was a terrible shortage of coppers in her household these days.."I have a favor to ask you," I said as calmly as I could. "You must explain to me. . .".the room; her lips moved, she was speaking, and gems as big as shields covered her ears, glittered.engulfingly soft, as everywhere. The back of my seat was so high that I could barely see the other.It would be Berry at the door, though why he knocked she didn't know. "Come in, you fool!" she.asked them.."Now, what is forbidden to the summoner, or any wizard, is to call a living spirit. We can call to.the fishermen can't pay us."."What if you got to be a wizard! Oh! Think of the stuff you could teach me! Shapechanging -- We.Roke; and the man Otter or Tern came from there, though originally from Havnor; and they held him.Gelluk was sure that without him Losen's rubbishy kingdom would soon collapse and some enemy mage would rub out its king with half a spell. But he let Losen act the master. The pirate was a convenience to the wizard, who had got used to having his wants provided, his time free, and an endless supply of slaves for his needs and experiments. It was easy to keep up the protections he had laid on Losen's person and expeditions and forays, the prisoning spells he had laid on the places slaves worked or treasures were kept. Making those spells had been a different matter, a long hard work. But they were in place now, and there wasn't a wizard in all Havnor who could undo them..the palace of the kings. "A great enemy has gathered against you, south in the Inmost Sea, and we."But power - like you told me about - that .isn't the same as making people do what you want, or.again and choose an Archmage. The king had had no place among us, he said. And "a woman on Gont",.when he was talking to the work, and insisted that he do his carpentry with tools, in silence..There was an old man by our door."Broom's a village sorcerer. This man is a wise man. He learned the High Arts at the Great House.THE KARGAD LANDS."Ah, that," Medra said, rueful..He shook his head..Irian, she shrank back from him. It was as if a grave had opened, a winter grave, cold, wet, dark.."There's no harm in him but the drink, but there's not much left of him but the drink. It's eaten.A young man in a grey cloak hurrying down the passageway stopped short as he approached them. He.The leaves of the trees spoke, she said, and the shadows could be read. "I am learning to read them," she said..hunting for me through all the infors of this station-city.."Or the music without you."
