Picket duty wasn't as bad as I thought it would be. There's been some talk about the Company hiring. Sure, I know the Project's an important undertaking, but construction workers have to live the same as anybody else, no matter how important what they're constructing is. Like the Organizer says, it's dog-eat-dog these days, and workmen have to look out for themselves, nobody else is going to. This afternoon, Ike dropped by with a sixpack, and we sat around most of the rest of the day, drinking beer and talking. He's up for picket duty tonight; I'm not scheduled till tomorrow morning. Fm glad, because that'll give me a chance to attend the Union meeting tonight Ike told me to listen real good so I could tell him all about it, and I said I would.."Well," Song admitted, "it wasn't a bad inference, at that. But the holes I saw were not punched through. They were eaten away." She waited for Lang to protest that the dome bottom was about as chemically inert as any plastic yet devised. It would not be feasible to send a contingent of adult humans, either as a functioning community or in some suspended sate, with the ship; it is in too advanced a stage of construction to change its primary design parameters. But then, why send adult humans at all?" He. spread his arms appealingly. "After all, the objective is simply to establish an extension of our race where it would be safe from any calamity that might befall us here, and such a location would be found only at the end of the voyage. The people would not be required either during the voyage or in the survey phase, since ' machines are perfectly capable of handling everything con-branches, the orange melons on the vines. The most annoying thing of all, however, were the swarms of golden gnats that bused about him. He would beat at them with the umbrella, but they came right back again..His first elation fizzled out and he was left with his usual flattened sense of personal inconsequence. Tucking the license into his ID folder, he felt like a complete charlatan, a nobody pretending to be a somebody. If-he'd scored in the first percentile, he'd have been issued this license the same as if he'd scored in the tenth. And he knew with a priori certainty that he hadn't done that well. The most he'd hoped for was another seven points, just enough to top him over the edge, into the sixth percentile. Instead he'd had dumb luck..give warning. They had to abandon the Matthews for the time, as another enigma had cropped up which demanded their attention. But the rising sun summoned him outside. He donned the deerskin and leapt away. It isn't the realists who find life dreadful. It's the romancers. After all, which group is trying to escape from life? Reality is horrible and wonderful, disappointing and ecstatic, beautiful and ugly. Reality is everything. Reality is what there is. Only the hopelessly insensitive find reality so pleasant as to never want to get away from it. But pain-killers can be bad for the health, and even if they were not, I am damned if anyone will make me say that the newest fad in analgesics is equivalent to the illumination, which is the other thing (besides pleasure) art ought to provide. Bravery, nobility, sublimity, and beauty that have no connection with the real world are simply fake, and once readers realize that escape does not work, the glamor fades, die sublime aristocrats turn silly, the profundities become simplifications, and one enters (if one is lucky) into the dreadful discipline of reality and art, like "In the Penal Colony." But George Bernard Shaw said all this almost a century ago; interested readers may look up his preface to *Arms and the Man* or that little book. The Quintessence of Ibsenism. I have accepted an invitation from the President to take charge of the Starhaven project on behalf of the United States as the senior member nation, and I am relinquishing my position with NASDO purely in order to give undivided attention to my new responsibilities. For those who might believe that I've given them some hard times in the past, I have to say with insincere apologies that I'm going to be around for some time longer yet, and that before this project is through the times are going to get a lot harder." "He couldn't have killed Maurice after he left here?" She threw up her hands. "How can I make you understand? This is nothing like anything I've ever." "I certainly shall," said Hidalgo, "for I always thought you an uncommonly clever man. Your return with this wheelbarrow has proved you worthy of my opinion." Someone opened the door of the Mariner's Tavern and called inside, "Why is everybody so glum this evening when there's a beautiful rainbow looped across the world?" I closed the door quietly behind me and walked around the end of the bed so I could see all of him. He was huddled on his back with his elbows propped up by the wall and the bed. His throat had been cut. The blood hadn't spread very far. Most of it had been soaked up by the threadbare carpet under the bed. I looked around the grubby little room but didn't find anything.
