Or the twig can be grafted to the branch of another tree (of a different variety even), where it can grow and flourish. In either case, it is an organism with a single parent, and sex has had nothing to do with its making. It is because human beings first encountered this asexual form of reproduction, hi connection with fruit trees probably, that such a one-parent organism of non-sexual origin is called a "twig"; that is, "clone." Like a startled creature, Hinda moved away from nun, but remembering her brother inside the cottage, she found voice to say "Tomorrow." She reached behind her and steadied herself on the door handle. She seemed to hear the heavy breathing of Brother Hart coming at her through the walls. "Come tomorrow." It was small comfort, but Nolan had no choice.
