Nolan smiled at the sound, then nodded at Mama. "I'm going to turn in now. You take good care of him." An alarm started in his helmet, flat and strangely soothing coming from the tiny speaker. He stood there for a moment as a perfect smoke ring of dust billowed up around the rim of the dome. Then he was running..he never again had such a plum fall in his lap. He didn't get within sniffing distance of his heart's desire..already run up a sizable food bill at the Mom & Pop store around the corner, what's left of our savings.I did extract a promise that she would let me show her more houses another day; then I made myself friendships. The atmosphere was forced and false; an eat-drink-and-be-merry feeling pervaded everything they did..embryonic development to guide embryos into all sorts of specialized bypaths that would produce a kind of monster that had a full-sized heart, with all else vestigial, or a full-sized kidney or lung or liver or leg.
