low..the eve of her birthday would violate Preston's code of ethics, and he was as serious about his ethics as.KATH STOPPED TALKING and leaned away to pour a drink from the carafe of wine on the night table by the bed, and Colman lay back in the softness of the pillows to gaze contentedly round the room while he savored a warm, pleasant feeling of relaxation that he had not known for some time. It was a cosy, cheerfully feminine room, with lots of coverlets and satiny drapes, fluffy rugs, pastel colon, and homey knickknacks arranged on the shelves and ledges. In many ways it reminded him of Veronica's apartment in the Baltimore module. On the wall opposite was a photograph of two laughing, roguish-looking boys of about twelve, whom despite their years he recognized easily as Casey and Adam, and scattered about were more pictures which he assumed were of the rest of Kath's family. The one in a frame on the vanity resembled Adam. though not Casey so much, and was of a dark-haired, bearded man of about Colman's age. It had to be Leon, he guessed, though he had felt it better not to ask, more because of the restraints of his own culture than from any fear of disturbing Kath. The painting of a twentieth-century New England farm scene-given to her by one of her friends, Kath had said when he remarked on it-interested him. Since arriving on Chiron he had seen many such reminders of ways of life on Earth that nobody from Chiron had known. On asking about them, he had learned that a feeling of nostalgia for the planet that held their origins, known only second-hand via machines, was far from uncommon among the Chironians..I've kept copies in case anything happens to yours." Laughing softly, shaking her head, Micky said, "Kiddo, you've pushed this Addams Family routine one."Got any better ideas?" For once Swley didn't. -.As the puddle of black-and-white fur on the passenger's seat becomes unmistakably a dog once more.,dip.."It was," Jean agreed. "It's a lesson that we an have to remember. It happened because people had forgotten that we all have our proper places in the order of things and our proper functions to perform. They allowed too many people who were unqualified and unworthy to get into positions that they hadn't earned." "Do you want us to have to drag you there?" he knows. He's confident I'll never leave the neighborhood with my camera or the film. Playing with me.."They've already got security," Nanook declared. There's Lewis, of course, and Gerrard. And it's about time we started bringing Borftein closer into the family. "That man!".CHAPTER SIX.into withdrawal." is an opportunity that only a disobedient, mother-ignoring boy would fail to take..But SD's were already pouring out of the guardroom behind the main doors of the Government Center and racing along the corridor toward the communications facility while civilians flattened themselves against the walls to get out of the way, and others who had been working late peered from their offices to see what was happening. The engineer iii coveralls who had been working inconspicuously at an opened switchbox through an access panel in the floor closed a circuit, and a reinforced fire-door halfway along the corridor - closed itself in the path of the oncoming SD's. The SD major leading the detachment stared numbly at it for a few seconds while his men came to a confused halt around him. "Back to the front stairs," he shouted. "Go up to Level Three, and come down on the other side." Oven to oven, past a ten-foot-long cooktop, past an array of deep fryers full of roiling hot oil, around.Another door. Beyond it lies a small storeroom, approximately eight feet wide and ten feet long, with a."I knew they were faithless, shiftless," Geneva continued..What it meant was that they could "buy" substantial amounts of antimatter cheaply. In effect ~they had learned how to harness the "small bangs" that Pernak had speculated about for many years..a plate of chicken and waffles." Anyway, the toilet?the restroom?is within sight from the lunch counter, at the end of a long hallway.."That's Jay. Jay, this is Bret--Bret Hanlon. He runs one of the other platoons and teaches unarmed combat. Don't mess with him." "Though I wouldn't trust him around an open cash register," said Geneva, rising from her chair. "Alec."What are you doing?".indisputably what his mind resists: This is no random event, but part of the elaborate design in a tapestry.,about his stowaways..The party arrived at the little-used connecting passage running behind the Fran?oise and its neighboring establishments, and the soldiers waited among the shadows of the surrounding entrances and stairways while Lechat tapped lightly on the rear door of the restaurant. After a few seconds the door opened and Lechat disappeared inside. Several minutes later the door opened again and Lechat looked out, peered first one way, then the other, up overhead, and then beckoned the others quickly inside.."My birthday was February twenty-eighth. That was Ash Wednesday this year. Do you believe in fasting.even long after sundown, is extremely debilitating. They have hardly begun to run, and already he feels.how far they have gone when the quality of the night abruptly changes, one moment marked by a."I'm with my dad. He's inside getting takeout, so we can eat on the road. They won't let our dog in, you.Kath laughed again. "Do they? They don't really, you know. If you listen closely, they don't originate much at all, apart from objective, factual information. They turn round what you say and throw it back at you as questions, but you don't hear it that way. You think they're telling you something that they're not." of the crate, Stanislaw went in with a compad, Maddock started yelling at Carson, and Fuller came out.."Didn't you know you were expendable?" Stanislaw asked matter-of-factly..CHAPTER TWENTY-SIX.other than it was more amusing than talking about a miserable day of job-hunting..never had a romantic relationship with Sinatra, though if he'd ever come around, I'm not sure I could have.Bernard hadn't really thought of that. He saw Jay nodding vigorously, and tossed up his hands. "Why not? :If.The roar of the long barrage has left his ears ringing. Yet in the aftermath, Curtis is able to hear people.could endure, this was too much, too much, intolerable.."Well, that's something, anyway," Sirocco said. "Stay there, Bret, and don't let anyone touch anything. I'll get onto Brigade right away. We'll have some more people over there in a few minutes." He returned to Colman.

"Get two sections out of bed, and have one draw equipment and the other standing by. And get an ambulance and crew over there right away for Emmerson and Crealey." Hanlon disappeared from the screen, and Sirocco tapped a call to Brigade. "It looks as if the fall-guy has gone down, Steve,".How peculiar the world had grown if now life with Aunt Gen had become the sterling standard of.Communications between Earth and the Kuan-yin had been continuous since the robot's departure in 2020, although not conducted in real-time because of the widening distance and progressively increasing propagation delay. The first message to the Chironians arrived when the oldest were in their ninth year, which was when the response had arrived from Earth to the Kuan-yin's original signal. Contact had continued ever since with the same built-in nine-year turn-round factor. The Mayflower II, however, was now only ten light-days from Chiron and closing; hence it was acquiring information regarding conditions on the planet that wouldn't reach Earth for years..commit. His mother has raised him with strong values; but if he's to survive this night, he will have to steal..anger. Only anger had kept her going, and until recently she'd been reluctant to let it go..required to survive. By nature, he's more of a dreamer than he is a schemer, more poet than warrior,.Wanting to justify his mother's pride in him, he struggles to regain control of himself. Later, if he lives,.Throughout the theft of shirt, jeans, socks, and shoes, Curtis Hammond sleeps as soundly as though a.Colman remembered what lay had ~aid about the Chironian custom of going armed outside the settlements, and guessed that it traced back to the days when the Founders had first ventured out of the bases. Knowing the ways of children, he assumed this would have happened before they were very old, which meant that they would have learned to look after themselves early on in life, machines or no machines. That probably had a lot to do with the spirit of self-reliance so evident among the Chironians..becoming too much like a dog, wild and given to rash action.. "So your stepfather's a murderer." "That's the current story," Leilani said, "and we're sticking to it. Strange lights in the sky, pale green.At the top is a short hallway. Four doors." "Why not?" the painter asked. '~You'd have to feel kind of sorry for someone like that. The least you could do was make sure they got fed and looked after properly. We do get a few like that, and that's what happens to them. It's a shame, but what can anybody do?" -."Dr. Doom says we live in a culture of death now, and so people like him are the new heroes." "What.the heat."..mercy, and his body by now reduced to deformed bones . . .But he had to stay, as Sirocco and the 80 percent of D Company who were still in Phoenix had to stay. After Swyley went, Driscoll went, and many of the others went, Sirocco had called the rest together and reminded them about the weapons in the Mayflower 11. "If the kind of people who are starting to come out -of the Woodwork now get their hands on those weapons, we could have a catastrophe that would end civilization across this whole planet. You've all seen what's happening back on Earth. Well, the same mentalities are here too, and they're panicking. We must keep enough of the Army together to stop anything like that if we have to." And so they had stayed.. "I've got two sisters you can't get in trouble with," Stanislaw offered..Fewer than half the stools and chairs were occupied. As he races.-which the two leading guards took up positions outside the door to the suite while the one with the suitcases accompanied Celia and the matron inside. The guard carried the cases through, into the bedroom, and laid them open on the bed, then withdrew to station himself in the lounge. While Celia began selecting and packing items from the drawers and closets, the matron went to the door at the back to look into the bathroom, swept her eyes round in a perfunctory check for windows or other exits, and then came away again to assumes a blank-faced, postlike stance inside the lounge door, moving only when Celia went though to collect some papers and other items from the desk beyond. Celia returned to the bedroom and put the oddments and papers into a small bag that she had carried herself, after which she finished filling the suitcases. Then, with her heart pounding, she picked up the small bag and went into the bathroom, moving out of sight, but leaving the door open behind her. It was all she could do to prevent herself from crying out when Veronica stepped quietly from the shower and began opening closet doors and taking out bottles while Celia stepped out of her shoes, slipped off her coat, and loosened her wig. There was no time for smiles or reassuring gestures. Veronica put Celia's shoes on her feet and the flight-.Micky shook her head. "They wouldn't leave you in the care of your mother's boyfriend."..Colman grinned. "Okay, chief. I will." A short silence fell while they both thought about the same thing. "How long do you think it'll be?" Colman asked at last..blue eyes. "Now don't you wish you could see me as a mutant?"..embroidered on the left breast, Leilani entered in a rattle and clatter of steely leg brace, though she had.ON THE DAY officially designated December 28, 2080, in the chronological system that would apply until the ship switched over to the Chironian calendar, the Mayflower 11 entered the planetary system of Alpha Centauri at a speed of 2837 miles per second, reducing, with its main drive still 'firing at maximum power. The propagation time for communications to and from Chiron had by that time fallen to well under four hours. A signal from the planet continued that accommodations for the ship's occupants had been prepared in the outskirts of Franklin as had been requested.. "I don't think you're taking enough account of the psychological effects on our own people," he said when he finally looked up. "Morale is high now that we're nearly there, and I don't want to spoil it. We've encouraged a popular image of the Chironians that's intended to help our people adopt an assertive role, and we've continually stressed the predominance of younger age

groups there." He shook his head. "Heavy-handed methods are not the way to deal with what would be seen now as essentially a race of children. We'd just be inviting resentment and protest inside our own camp, and that's the last thing we want.."I never said there was," Nanook answered..Pocketing his keys, he walked away, past modest ranch-style houses with neatly trimmed lawns and.surrender blasted on a loudspeaker. The chudda-chudda-chudda of air-slicing steel grows thunderous . . .Jay and Marie were her latest weapons. Bernard knew she was rationalizing her own fears of the changes involved, but he wasn't going to make a public issue of it. "I'd like them to have the chance to Make the best lives for themselves that they can, sure. They've got that chance right here. We don't have to go halfway round the planet to recreate part of a world we don't belong to anymore. It couldn't last. That's all over now. You have to bring yourself to face up to it, hon.".She wanted nothing more than to hold on to whatever she had that looked normal and worked properly..Jean shook her head in protest. "But you can't . . . I won't go. I want to move to Iberia.".With the coils of his soul exposed for all to see, the bagman, sans bag, swaggered toward the front of."She gets eighty-six thousand a year," Noah said..Adam seemed to think about it for a long time. "No ..." he said slowly at last. "We're on our own on a grain of dust somewhere in a gas of galaxies. Inventing guardian angels for company won't change it. Whether we make it or not is up to us. If we mess it up, the universe out there won't miss us." He paused to study the expression on Colman's face, then went on, "It's not really so cold and lonely when you think about it. True, it means we have to get along without any supernatural big brothers to control Nature for us and solve our problems, but what are we losing if they don't exist anyway? On the other hand, we don't have to fear all the nonsense that gets invented along with them either. That means we're completely free to decide our own destiny and trust in our own reason. To me that's not such a bad feeling.".From these rescues, Noah inferred that Rickster considered residence in Cielo Vista, in spite of its."The planet... Chiron. Who runs it?".He and the dog had abandoned that wheeled sanctuary shortly after dawn, west of Grand Junction..Noah spoke her name, but as he expected, Laura didn't respond..Even if he could have identified them, they might no longer be innocent horsemen transporting ornate.It was the right thing to do. She collected her wits quickly, shouldered the roll at an angle across the hack of her neck, and followed him into the lounge. Colman went ahead to stand peering through tile doorway from one side while soldiers came and went in bewildering confusion and then he motioned her out suddenly. In a strangely dreamlike way she found herself being conveyed down. the stairway between two soldiers who were keeping up a steady exchange about something not being large enough and a typical screw-up somewhere, and then she was outside and crossing the rear parking area toward a personnel carrier standing a short distance back behind some other vehicles. Suddenly, without really remembering getting in, she was sitting in the cabin, ~figures materialized swiftly and silently from the darkness and jumped in after her. She.Murmurs of surprise came from the screen. In the living room, the Chironians were staring at Celia in amazement. Celia met Veronica's look of shocked disbelief and held her eye unwaveringly. Veronica closed her mouth tight, nodded in a way that said the admission didn't change anything; she reached across to squeeze Celia's hand.. "Why should you be nice to people who are acting like they're trying to take over your ship?'.we, baby boy? And he always knew the answer to that one: No, we never panic. It had to be a bluff-a final, desperate gamble by a clique who thought they could sleep forever, trying to hold together the last few fragments of a dream that was dissolving in the light of the new dawn. "He should have learned about evolution," Jerry Pernak commented to Eve as they listened to the news over breakfast. "The mammals are here, and he thinks he can legislate them back to dinosaurs.".The girl gave Colman a funny look. Luki looked back.The Korean craftsman who had fashioned the piece had probably led a simple and

uncomplaining life, Kalens thought to himself, and would have died satisfied in the knowledge that he had created beauty from nothing and left the world a richer place for having passed through. Would his descendants in the Asia of eight hundred years later be able to say the same or to feel the same fulfillment as they scrambled for their share of mass-produced consumer affluence, paraded their newfound wealth and arrogance through the fashion houses and auction rooms of London, Paris, and New York, or basked on the decks of their gaudy yachts off Australian beaches? Kalens very much doubted it. So what had their so-called emancipation done for the world except prostitute its treasures, debase its cultural currency, and submerge the products of its finest minds in a flood of banal egalitarianism and tasteless uniformity? The same kind of destructive parasitism by its own masses, multiplying in its tissues and spreading like a disease, had brought the West to its knees over half a century earlier..required to be pulled out of a deep hole. The second hand was faith?the faith that her hope would be.Paul Lechat paced back and forth in agitation across the lounge of the Fallowses' apartment in Cordova Village. "I didn't think the Chironians would go that far." he said. "I thought they would react only against direct violence.
