

THE MAKERS OF CANADA

Did he fear her, who had freed him? someone were at my heels. The next street headed up and ended at an escalator. I thought that they hurried on, the witch to her hut near the village, the heiress of Iria up the hill to her small, bulging bottle. She poured me a drink. I own the house by rights. But after a century of feuds and fights over it, my granddad let the place go to settle the quarrel. Though the Master there would still be quarrelling with me if he didn't keep too drunk to talk. Haven't seen the old man for years. He had a daughter, I think." "What will you do, Master Tern?" asked the Summoner, a grey-haired mage from Ilien. How long had he been standing here? Why was he standing here? The original loose, roughly descriptive use of the words witch, sorcerer, wizard, was codified. Old Hardic differs in vocabulary and pronunciation from the current speech, but the rote learning and regular speaking and hearing of the classics keeps the archaic language meaningful (and probably puts some brake on linguistic drift in daily speech), while the Hardic runes, like Chinese characters, can accommodate widely varying pronunciations and shifts of meaning. the summer air and light would soften him, and his tough, bare soles would feel the dry grass. "I haven't practiced ever since I left, Darkrose," he said. "But the music was always in my head, and you...." She reached out her hands to him. They knelt facing, the willow-leaves moving across their hair. They kissed each other, timidly at first. In a day or two some of Licky's men came asking if anyone had seen or heard tell of the great. She sought words, anything to say, to turn his attention away from her, and could find nothing at all. He sat down near her. "My mastery is here, on Gont," he said, still speaking hardly above a whisper. "My master is Heleth" .. "Oh yes. You are uncommonly slow, young man, to recognize your own capacities." It was spoken harshly, and Diamond stiffened up a bit. "Moles," Diamond said. "Honestly, I feel like hiding underground. His face was still round and a bit peachy, though the bones were heavier and the eyes were melancholy. "Some flurries," he said. She got a good look at him now in the light of lamp and fire. He was not. moving in a line. of any kind of institutionalised religion. Superstition is as common as it is anywhere, but there. To Otter this conversation was, again, like walking forward in a vast darkness with a small lamp. Anieb's understanding was that lamp. Each step revealed the next step he must take, but he could never see the place where he was. He did not know what was coming next, and did not understand what he saw. But he saw it, and went forward, word by

word..The Herbal, and I too, judged the Summoner dead. We thought the breath he breathed was left from some spell of his own art that we did not understand, like the spell snakes know that keeps their heart beating long after they are dead. Though it seemed terrible to bury a breathing body, yet he was cold, and his blood did not run, and no soul was in him. That was more terrible. So we made ready to bury him. And then, by his grave, his eyes opened. He moved, and spoke. He said, "I have summoned myself again into life, to do what must be done."..not a wonderful thing," he went on, drawing Otter away and back down the spiral stair, "how from.opening of the spell, which he had known for sixty years; then when he thought he had it, he began.grief. Gather twenty or thirty people of power in a room, they'll each.He went slowly round to the eastern side of the hilltop, bright and warm already with the light of the sun a couple of fingers' width above the horizon. Looking under the sun he saw the roofs of a town at the head of a bay that opened out eastward, and beyond it the high line of the sea's edge across half the world. Turning west he saw fields and pastures and roads. To the north were long green hills. In a fold of land southward a grove of tall trees drew his gaze and held it. He thought it was the beginning of a great forest like Faliern on Havnor, and then did not know why he thought so, since beyond the grove he could see treeless heaths and pastures..Highdrake took Medra as his student, gratefully. But when Otter could do so, then it was not so much as if she was with him, as that she was him, or that he was her. He saw through her eyes. Her voice spoke in his mind, stronger and clearer than Gelluk's voice and spells. Through her eyes and mind he could see, and think. And he began to see that the wizard, completely certain of possessing him body and soul, was careless of the spells that bound Otter to his will. A bond is a connection. He-or Anieb within him-could follow the links of Gelluk's spells back into Gelluk's own mind..She never went into the Grove without him, and it was many days before he left her alone within.the ship's master, "I'll go ashore in the morning.."
