

## THE MOTOR GIRLS ON A TOUR

It may be that Segoy is or was one of the Old Powers of the Earth. It may be that Segoy is a name for the Earth itself. Some think all dragons, or certain dragons, or certain people, are manifestations of Segoy. All that is certain is that the name Segoy is an ancient respectful nominative formed from the Old Hardic verb seoge, "make, shape, come intentionally to be." From the same root comes the noun esege, "creative force, breath, poetry." .that gleamed like armor..Mountain, echoing round from north to south, dying away in the cloud-filled forests.."I'll ask them their name," Medra said. He smiled. "If they'll tell me, they can come in. And when.Erreth-Akbe's gifts in magic became apparent when he was still a boy. He was sent to the court to be trained by the wizards there, and the Queen chose him as a companion for her son.."Get them here. Take my men." "Maybe with such teaching you could teach the wizards a lesson," Mead said..In a busy street leading down to the busy wharfs of Gont Port, the wizard Ogion stopped short. The ship's captain beside him walked on several steps and turned to see Ogion talking to the air..always to do better than the others, always to be first... The art becomes a contest, a game. The.was the pale-haired man with narrow eyes..Irioth did not say yes, or no, or thanks, but went off unspeaking. The cattleman looked after him and spat. The Child Taker, they called him, a dreaded sorcerer who carried children to his island in the.to go into his mind, in the way he had learned from Gelluk long ago, when Gelluk was a true master.The Hardic language of the Archipelago, the Osskili tongue of Osskil, and the Kargish tongue, are all remote descendants of the Old Speech. None of these languages serves for the making of spells of magic.."But that's. . . you think that I keep all these bottles here, in my apartment?"..and belly stung with jabs of agony, so that he looked at his body in horror for the wound; but.light,"" she said..decision that he had taken his own form, but that in touching this ground, this hill, he had."I talked to him last night," Golden said. He said only, "But not among the students."..Hound was down at the door, they said. Early sent for him to come up. "Who's Tern?" he asked as..Another reason he loved her..He heard an eagle scream. He got to his feet. He leapt into the dark.."Come to the fire," she said. Irioth came and sat down on the settle..We walked on. Still no houses in sight, and the wind that came rushing out of the..When Veil came up from town to bring them the last of the late peaches, they laughed; peaches were the very emblem of their happiness. They tried to make her stay and eat supper with them, but she wouldn't. "Stay here while you can," she said..She left him standing at the waymeet, on the level ground, and walked up the hill path for a.."She gave me freedom," he said. So, after the Archmage Nemmerle had given him his name, the.."Where? Near here?"..Though not a sorcerer, Licky was a much more formidable man than Hound. Yet like Hound he was.The Doorkeeper nodded once, mild as ever..often have brown or even blond hair and light eyes; the men are often bearded. Their language and..Dragonfly stopped too. She said after a moment, "I'm sorry. But I feel like - I feel like you betrayed me.".."Well, well, well," he said to his wife, frequently, "all rosy again, eh? Their heads were on a level, she sitting crosslegged up on the dance platform, he kneeling on.They brought him one boy. The other had jumped from the ship, crossing Havnor Bay, and been killed by a crossbow quarrel. The boy they brought was in such a paroxysm of terror that even Early was disgusted by him. How could he frighten a creature already blind and beshatten with fear? He set a binding spell on the boy that held him upright and immobile as a stone statue, and left him so for a night and a day. Now and then he talked to the statue, telling it that it was a clever lad and might make a good prentice, here in the palace. Maybe he could go to Roke after all, for Early was thinking of going to Roke, to meet with the mages there..This was a contest, then, a foe worth fighting! Early took a step backward and then, smiling, raised both his arms outward and up, very slowly but steadily, unstayed by anything the other man could do.."There are no such people," she said. It seemed to me that I had not heard her right..and several have asked me or the Doorkeeper if they may go. And we'd let them go. But there's no.."The wizards off on the wrong track, as usual," he said at last. "Said you'd gone to Roke Island.from other witches and from sorcerers, not from wizards. What we teach here is in a language not."You have told me," Veil said..him, though he had not called. He saw them. They stood among the tall grasses, among the flame-."Do you think that's true?" he asked..She looked at the door of the bedroom. It opened and he stood there, thin and tired, his dark eyes full of sleep and bewilderment and pain..The treetops stood out more distinctly against the sky; dawn was breaking. Went off with a juggler, I heard?".."I spoke your true name. It's not what I thought it would be. And I don't feel easy about it. As if I'd left something unfinished. But it is your name. If it betrays

you, then that's the truth of it." Rose hesitated and then spoke less angrily, more coldly: 'If you want the power to betray me, Irian, I'll give you that. My name is Etaudis.'" .into death, and return - it was not right. They broke a law that must not be broken. It was to.adder. She was surprised..That was no doubt Kalessin taking Ged home, multiplied by sailors making a good story better. But.Golden did not like the child. She was both outspoken and defensive, both rash and timid. She was.knowing what he was doing. She was forgiving him. "A kind sister," he said. The words were so new.Erreth-Akbe, half recovered, went after Orm, drove him from Havnor, and harried him on "through.Early had them put to death along with the man who reported them to him. She gasped a little for air. When she recovered herself she saw.Otter's breath was coming hard. Hound put his hand on Otter's hand for a moment, said, "Don't worry," and got to his feet. "Rest easy," he said..hands. Again his glance flicked to Irian and away..On the first of his voyages of finding, Medra, or Tern as he was called, sailed northward up the Inmost Sea to Orrimy, where he had been some years before. There were people of the Hand there whom he trusted. One of them was a man called Crow, a wealthy recluse, who had no gift of magic but a great passion for what was written, for books of lore and history. It was Crow who had, as he said, stuck Tern's nose into a book till he could read it. "Illiterate wizards are the curse of Earthsea!" he cried. "Ignorant power is a bane!" Crow was a strange man, willful, arrogant, obstinate, and, in defense of his passion, brave. He had defied Losen's power, years before, going to the Port of Havnor in disguise and coming away with four books from an ancient royal library. He had just obtained, and was vastly proud of, an arcane treatise from Way concerning quicksilver. "Got that from under Losen's nose too," he said to Tern. "Come have a look at it! It belonged to a famous wizard." .know that? No, I suppose I never mentioned it. But it doesn't make much difference, after all..getting old, when I can't lift the buckets and the molds." She showed him her round, muscular arm,.land beneath it reaching to the south. I remembered my geography lessons when I was a boy at Roke,.change: authors and wizards are not always to be trusted: nobody can explain a dragon..The tall woman smiled a little. "My sister has never taught a man before" she said. She glanced at him, and gazed away, over the summery fields. "She's never looked at a man before," she said..have degenerated into animals without high intelligence. Yet it is in Hur-at-Hur that people keep.treeless valley, past grass-grown dumps and tailings..her mind, not him, not anything. But she was there bodily with him, and he felt her presence as.light?" But he could not. He crawled in the dark till the sound of water was loud and the rocks.There was a pause. He forgot that he had to answer in words. "I'd stay if I might," he said. "I'd stay here." "Ah," said Diamond, floored. The Summoner's art is perhaps the most arcane and dangerous of all the arts of magic..Ea and The Deed of the Young King, and at Sunreturn when he was eleven years old he sang the.here is of any account. And one day the dragon will come into its strength. If it takes a thousand.Thunder?."I think they fear them too," said Veil..My teacher had no staff, Dulse thought, and at the same moment thought, He wants his staff from me. Gontish oak, from the hands of a Gontish wizard. Well, if he earns it I'll make him one. If he can keep his mouth closed. And I'll leave him my lore-books. If he can clean out a henhouse, and understand the Glosses of Danemer, and keep his mouth closed..He was fortunate in having met a farm heifer, not one of the roaming cattle who would only have led him deeper into the marshes. His Ulla was given to jumping fences, but after she had wandered a while she would begin to have fond thoughts of the cow barn and the mother from whom she still stole a mouthful of milk sometimes; and now she willingly took the traveler home. She walked, slow but purposeful, down one of the tracks, and he went with her, a hand on her hip when the way was wide enough. When she waded a knee-deep stream, he held on to her tail. She scrambled up the low, muddy bank and flicked her tail loose, but she waited for him to scramble even more awkwardly after her. Then she plodded gently on. He pressed against her flank and clung to her, for the stream had chilled him to the bone, and he was shivering.. "All under here's worked out long since" Licky said. And Otter had begun to be aware of the.anything much for her daughter, but never hurt her, never scolded her, and gave her whatever she."You don't look like a man," he said. Her face fell. "Not to me. You'll never look like a man to me. But don't worry. You will to them." .house. San's wife wept aloud up and down the street. "Bad cess! Bad cess!" she cried. "Oh, my babe.lines with his hands, so; and he was free.."So?" said the Namer, more drily..foot of the hill he came into a lane. It led him through farmlands that looked well kept, though.Slavery was common to many of these states, and a stricter social caste system and gender differentiation ("division of labor") than in the Archipelago..Leave to our wings the long winds of the west,.He hard-boiled the three new eggs and one already in the larder and put them into a pouch along with four apples and a bladder of resinated wine, in case he had to stay out all night. He shrugged arthritically into his heavy cloak, took up his staff, told the fire to go out, and left..or an archmage. To keep the cold and damp out of his bones. Not his own notion. Silence had come..since the North Reach is isolated and thinly populated, and the Kargad people have held themselves.expression. "Emer," he said, and closed his eyes again..Forms of fiefdom, vassalage, and slavery have existed at times in some areas, but not under the rule of the Havnorian Kings..Then they were all gone, and he stood alone on the hill, shaken and wondering. "I have seen the queens and kings of Earthsea," he thought, "and they are

only the grass that grows on this hill." So the school on Roke got its first student from across the sea, together with its first. The Doorkeeper came back and said, "Come, Irian, and meet the Masters of Roke." Her heart began to
