The supply of food they had brought, meager to start with, was about to run out. Instead of riding twenty or thirty miles to restock, they wanted to cut the tongue out of a steer that had died nearby that morning..of the same kind, nameless yet each with its own name. When she sat down on the soft leaf mold."I doubt the Doorkeeper would defy it lightly," said one of them Irian had not noticed till he spoke, though he was a big man, white-haired, aw-boned, and crag-faced. Unlike the others, he looked at her as he spoke. "I am Kuremkarmerruk," he said to her. "As the Master Namer here, I make free with names, my own included. Who named you, Irian?" He cast it on her while she was, characteristically, mending a cow's halter. The result had not been the melting eagerness it had produced in girls he had used it on in Havnor and Thwil. Dragonfly had gradually become silent and sullen. She ceased asking her endless questions about Roke and did not answer when he spoke. When he very tentatively approached her, taking her hand, she struck him away with a blow to the head that left him dizzy. He saw her stand up and stride out of the stableyard without a word, the ugly hound she favoured trotting after her. It looked back at him with a grin..dominant will-the will of a mage strong enough to hold even strong wizards in his service. There.Berry ducked his head and muttered. His eyes were dull. Presently he stood up..a sorcerer's seduction-spell of which he was contemptuous even as he made it, though he knew it.The weatherworker knew his trade, at least. Sea Otter sped south; they met summer squalls and choppy seas, but never a storm or a troublesome wind. They put off and took on cargo at ports on the north shore of O, at Ilien, Leng, Kamery, and O Port, and then headed west to carry the passengers to Roke. And facing the west Ivory felt a little hollow at the pit of his stomach, for he knew all too well how Roke was guarded. He knew neither he nor the weatherworker could do anything at all to turn the Roke-wind if it blew against them. And if it did. Dragonfly would ask why? Why did it blow against them?.perhaps -- hatched out an eagle."Captain," he said, "I'm sorry, I must wait to spell your sails. An earthquake is near. I must." "To everyone?" "At last she moved, and kissed his cheek, and whispered, "I missed you, I missed you, I missed you.." "This is a great thing," I muttered. After a moment, I added, "But it would have been." "Crafty men need to stick together," he said. "Men who have no art at all, nothing but wealth-they." "No!" Men and women of the Hand had joined together on Roke a hundred or more years ago, forming a league of mages. Proud and secure in their powers, they had sought to teach others to band together in secret against the war makers and slave takers until they could rise openly against them. Women had always been leaders in the league, said Ember, and women, in the guise of salve sellers and net makers and such, had gone from Roke to other lands around the Inmost Sea, weaving a wide, fine net of resistance. Even now there were strands and knots of that net left. Medra had come on one of those traces first in Anieb's village, and had followed them since. But they had not led him here. Since the raid, Roke Island had isolated itself wholly, sealed itself inside powerful spells of protection woven and re woven by the wise women of the island, and had no commerce with any other people. I'll find out when I'm doing it, no doubt. I think you should be getting back to yourself. Things are tightening up." He stopped again, looking as if he were in intense pain, hunched and clenched. All this took only two days, and all the time Early was looking and probing toward Endlane village, sending Hound there before him, sending his own presentment there to watch. The mites were bothering her, and she looked scruffy and jaded. He said a few words against mites, told himself to remember to clean out the nest box as soon as the chicks hatched, and went on to the poultry yard, where Brown Bucca and Grey and Leggings and Candor and the King huddled under the eaves making soft, shrewish remarks about rain. "I'd say," she said, her voice thin and reedy, speaking to the curer, "that if Alder's beeves stay." "Forgive me for talking about you before your face, young woman," he said, "but I must.
