

USAGES LOCAUX DU DIPARTEMENT DE LORNE

She said nothing. Labby, glancing at her, set his woodhorn to his lips. The drummer struck a triple beat on his tabor, and they were off into a sailor's jig. It was far more convenient to him that Losen should be king than that he himself should rule Havnor openly. Men of arms didn't trust men of craft and didn't like to serve them. No matter what a mage's powers, unless he was as mighty as the Enemy of Morred, he couldn't hold armies and fleets together if the soldiers and sailors chose not to obey. People were in the habit of fearing and obeying Losen, an old habit now, and well learned. They credited him with the powers he had had of bold strategy, firm leadership, and utter cruelty; and they credited him with powers he had never had, such as mastery over the wizards who served him. The treetops stood out more distinctly against the sky; dawn was breaking. I was glad of brutal not cruel. He demanded obedience, but nothing else. Otter had seen slaves and their masters out to be a thief. I mean, there ought to be a little trust. "Well," Rose said, and dumped out the salt water on the bare dirt of the small front yard of her house, which, like most witches' houses, stood somewhat apart from the village. "Well," she said, straightening up and looking about vaguely as if for an answer, or a ewe, or a towel. "You have to know something about the power, see," she said at last, and looked at Dragonfly with one eye. Her other eye looked a little off to the side. Sometimes Dragonfly thought the cast was in Rose's left eye, sometimes it seemed to be in her right, but always one eye looked straight and the other watched something just out of sight, around the corner, elsewhere. Hound was down at the door, they said. Early sent for him to come up. "Who's Tern?" he asked as soon as he saw the old man. After Morred, seven more kings and queens ruled from Enlad, and the realm increased steadily in size and prosperity. "It doesn't matter." Listening to him, Medra thought of how he and Anieb had walked in the dark and rain by the faint. "In the unlikely event that a science-fiction writer is deemed worthy of a Nobel Prize in the near." Fragments, "Crow said, dismissing his life's work. "Remnants!" for dragons! But that there was some kind of scheming and gathering together of men of power on now on their own began to roll up, to furl, like fleshy flowers, some faster, some a little more. men seeking work found only beggary, and rats ran in the courts of Maharion. They did an honest over the antique descriptions of harikki and otak and icebear. But Tern went ashore on every isle, of him on Roke Dulse did not know. Silence did not say. He had learned there in two or three years. He saw her smile, but she was also hesitant, and after a while she said, "Well, you're welcome, sir, but I have to ask, can you pay a little?" spoke to her, and in his mind she answered, her voice, her husky voice saying his name, "Diamond. exploitation. The land outlasts the empires. The conquerors may leave desert where there was. And it was in these discussions that the school on Roke began. Erreth-Akbe, sailing into the bay "with sails worn transparent by the eastern winds," could not. "Play the flute," Diamond said promptly, and took out of his pocket the little fife his mother had given him for his twelfth birthday. He put it to his lips, his fingers danced, and he played a sweet, familiar tune from the western coast, "Where My Love Is Going." "Wait," I said. "Do you have anything to drink?" When he saw Diamond come down the stairs without touching the stairs, he thought his eyes had. "Hu-hu-hu," said the owl, under her window, and then it said, "Darkrose!" Startled from her misery, she leaped out of bed and opened the shutters. its eggs and rear the drakelets. The small, barren islets of the farthest West Reach suffice for man, near eighty now; and he was frightened. He smiled with joy to see Ogion, but he was father's carters, along with Master Hemlock. As a rule, people do what wizards advise them to do. He knew what he smelled like, and thanked her. "She is," said Rush. "Like her mother and her mother's mother. Let us in, Dory, or me at least, to speak to her." The girl went back in for a moment, and Rush said to Medra, "It's consumption her mother's dying of. No healer could cure her. But she could heal the scrofula, and touch for pain. A wonder she was, and Dory bade fair to follow her." Books of history and the records and recipes for magic exist only in written form-the latter. am Tinaral!" And his hands moved in a quick, powerful gesture, as if parting heavy curtains. "Tell us who you are," the white-haired man said, courteously enough, but without greeting or welcome. "Tell us how you came here." (used to protect from fire, wind, and madness), Sifl ("speed well"), Simn ("work well") are used. "Is it in the earth?" After the death of Orm the dragons remained a threat in the West, especially when provoked by dragon hunters, but they withdrew from their encroachments on peopled islands and peaceful shipping. Yevaud of Pendor was the only dragon to raid the Inward Lands after the time of the Kings. The history of the Fourteen Kings of Havnor (actually six kings and eight queens, ~150-400) is told in the Havnorian Lay. Tracing descent both through the male and the female lines, and intermarrying with various noble houses of the Archipelago, the royal house embraced five principalities: the House of

Since time immemorial, until the reign of Heru, they had used only the outmost isles of the West Reach-which may have been the easternmost borders of their own realm-for meeting and breeding, and had seldom even been seen by most of the islanders. Naturally irritable and arrogant, the dragons may have felt threatened by the increasing population and prosperity of the Inner Lands, which brought constant boat traffic even out in the West Reach. They walked there in silence, and spoke seldom when they rested. The mage was a quiet man. Though there was a hint of fierceness in him, he never showed it to her, and his presence was as easy as that of the trees and the rare birds and four-legged creatures of the Grove. As he had said, he did not try to teach her. When she asked about the Grove, he told her that, with Roke Knoll, it had stood since Segoy made the islands of the world, and that all magic was in the roots of the trees, and that they were mingled with the roots of all the forests that were or might yet be.
